SC POSITION DURING THE RACE

Safety Car on Track

Safety Car Procedure

Under safety car procedure always follow the SC when the lights are on.
Even if the SC is going by the pitlane or takes an escape road.

End of the procedure: SC in this lap = boards removed; only one green flag on control line.

In case a SC procedure is preceded by a FCY procedure, the SC can come on track without lights, overtake some cars and place himself before the leader. When the lights go on we go from FCY to SC procedure. Then please line up as soon as possible behind SC, there is NO speed limit during SC procedure.
